New York Banks Will Refuse to Pay Out Currency to Creditors.

The indications are that banking in mitutions will not pay out large of property amounts in currency today except to a set regitimate requirements of their PITTSBU clients for current business. It has long been the practice of trust com panies and some of the smaller banks in meeting checks for considerable amounts to draw checks upon the na tional banks with which their reserves are kept If they pursue this policy today and until the end of the present crisis it will not be a departure from their usual practice

It is not believed that the dearth of currency will be such as to prevent those requiring small amounts or not having a regular hank account from obtaining it

Correctness in Dress Goods is Fully as Important as Quality.

We are showing a splendid assortment of authentic patterns in Dress Goods priced

By correctness we mean, correct in color, texture and design. There is a vast difference between the novelty weaves of last season and the present one. Green and blue combinations stand first among the twotone effects. While self colored plaids form a very strong feature. Even checked and striped materials show a radical departure from last season's modes. All these features are of vital interest to discriminative women, and its important to note these features in the purchases of materials for Fall dresses.

Our Dress Goods Stocks are carefully guarded against the encouchment of anything not absolutely correct and dependable and insures at all times a collection adapted to the needs of the most critical.

In addition to these novelty weaves we present at the same price (\$1.07) a striking collection of dress materials in plain colors, including Voils, Serges, Panamas and Broadclothes. We further direct your interest to our satisfying assortment of dress trimming, which presents wide choice of persian bands, pull braids, velvet and persuan combinations and imported novelty trimmings. In fairness to yourself you should at least see these fabrics and frimming before making a decision.

Next Thursday Is All-Hallowe'en.
